## Integrated Mobile Solutions at the Touch of a Button

Control – at your fingertips

Optional laptop shelf (swings to back of stand to conceal)

Flared feet for improved access and reduced tripping hazard

Remote control

**Pro-LIFT** is a smart idea that's on the move. The mobile **Pro-LIFT** product line is designed to enhance LED/LCD screens. All **Pro-LIFT** solutions are easy to maneuver; they can swivel and rise for optimum viewing, lower to pass through doorways, and are safe to move on heavy-duty casters. **Pro-LIFT** systems are optimized for the widest range of LCD/LED TV's such as SHARP and SAMSUNG. The **Pro-LIFT** system (through our other models available) is also configured to fit SMART, NEC, EPSON, CASIO, SONY or other projector/white board combinations.

Employ a **Pro-LIFT** system in your office environment to provide a clear viewing area for all attendees. Its strong but lightweight aluminum frame construction is easy to set up, adjust and move from one location to another and can handle weights up to 300 lbs. **Pro-LIFT** is CSA/UL tested and features a 6-outlet power bar to accommodate additional peripherals. Optional accessories include: laptop shelf, video conferencing camera shelf and comes standard with an IR remote control. No matter how you use a **Pro-LIFT** system, it may be totally customized to meet and exceed your specific needs.
