Pro-LIFT is a smart idea that's on the move. The mobile **Pro-LIFT** product line is designed to enhance interactive whiteboards and projectors. All **Pro-LIFT** solutions are easy to maneuver; they can swivel and rise for optimum viewing, lower to pass through doorways, and are safe to move on heavy-duty casters. **Pro-LIFT** systems are optimized for SMART™ projection and interactive whiteboard systems, but may be configured to fit NEC, EPSON, CASIO, SONY or other projector/white board combinations, and will even fit LCD TV's.

Employ a **Pro-LIFT** system in your office or classroom environment to provide a clear viewing area for all attendees. Its strong but lightweight aluminum frame construction is easy to set up, adjust and move from one location to another. **Pro-LIFT** is CSA/UL tested and features a 6-outlet power bar to accommodate additional peripherals. Optional accessories include: laptop shelf, video conferencing camera shelf and IR remote control. No matter how you use a **Pro-LIFT** system, it may be totally customized to meet and exceed your specific needs.
